MALPRACTICE: PATHOLOGISTS AND THE LAW

PROGRAM OBJECTIVES

• Understand the basics of medical malpractice law and discuss specific legal criteria that determine medical liability
• Learn how to negotiate a deposition and avoid its pitfalls
• Consider developing issues and future trends in medical malpractice
• Review cases and scenarios which illustrate situations common to medical malpractice

SPEAKERS.

Timothy Craig Allen, MD, JD, obtained his medical degree from Baylor College of Medicine in 1984 and completed his residency in anatomic and clinical pathology, subsequently serving on the faculty of Baylor College of Medicine until 1995. He then attended the University of Chicago Law School and graduated with the degree of Doctor of law with honors in 1998, subsequently practicing health care law and litigation. Dr. Allen completed a 2-year fellowship in pulmonary pathology in the Texas Medical Center in 2004. He is currently chair of the Department of Pathology at the University of Texas Health Science Center at Tyler.

Dr. Allen is certified by the American Board of Pathology in anatomic and clinical pathology, with added qualification in cytopathology. He is an associate editor of the Archives of Pathology and Laboratory Medicine. Dr. Allen is the current treasurer of the Pulmonary Pathology Society. He has authored and coauthored numerous articles and book chapters on pulmonary pathology and medicolegal issues and has coauthored and co-edited several books on pulmonary pathology. Dr. Allen is series coeditor of the Advances in Surgical Pathology series.
